## OBJECTIVE

Frontend-focused **Web Developer** with a passion for building intuitive, responsive applications. I pride myself on being highly **adaptable and open to learning**, ensuring I can quickly pivot between different tech stacks and methodologies to meet evolving project needs and drive team goals.

## SKILLS

- HTML, CSS, JavaScript, Python
- React JS and PHP Igniter libraries
- SASS, Bootstrap, and Tailwind
- Wordpress, Elementor
- PostgreSQL and MySQL
- Figma, Miro, Power Bi, Excel

## EXPERIENCE

### All Beauty PH | Office Staff

November 2021 - Present

- A versatile professional with a background in **multimedia design** and **operational logistics**, experienced in leveraging creative tools to produce high-quality digital media while managing complex inventory systems and database records to ensure efficiency. Beyond technical tasks, I have demonstrated strong leadership by assuming managerial responsibilities and maintaining team productivity during critical transitions.

### Spindiv Kinetics | Intern Web Developer

October - December 2025

- Experienced in the full-cycle development of **WordPress** websites, from initial **UI design** and **strategic planning** to technical execution. Proficient in performing custom **PHP backend debugging** to enhance core functionality, while ensuring site security and data integrity through rigorous **website backup** and **maintenance protocols**.

## OTHER EXPERIENCE:

### Osmun, Medical Appointment | Freelance Front-End Developer - 2024 - 2025

- Developed a **dual-access registration system** using **PHP CodeIgniter**, implementing role-based logic and streamlined form validation for patients and administrators.

### MetroSeek | Project Management & Full Stack Developer

- Spearheaded a **full-stack development** team through **strategic planning** and **framework implementation** to deliver a highly **functional, user-centric web experience**.

## PROJECTS

### MetroSeek - 2025

- Developed a **dual-access registration system** using **PHP CodeIgniter**, implementing role-based logic and streamlined form validation for patients and administrators.

### VetConnect - 2024 - 2025

- Architected 'VetConnect,' a centralized web platform that optimizes pet care by integrating **role-based appointment management** and a secure database for veterinary-client coordination.

### TravelSpot PH - 2023, 2025

- Developed a **responsive, image-optimized** travel platform using modern front-end practices to ensure seamless navigation and rapid load times for media-heavy content.

### TNHS Campus Tour - 2025

- **Designed** and implemented a **responsive** web platform for Talipan National High School to provide students and teachers with an accessible, easy-to-use digital campus guide.
- 

## EDUCATION

### Bachelor of Science in Information and Technology

Pamantasan ng Lungsod ng Muntinlupa
